Market Release Note

MRN-TS1066-V10-01.63558

Product number:	TS1066, TS1066-4
Product description:	Network Access Controller
Product version:	V10-01.63558
Release date:	August 2022

The Network Access Controller is an access control solution allowing you to manage your door and lift access requirements, as well as supporting intrusion applications with the ChallengerPlus.

The Network Access Controller complements the Challenger family of control panels by providing a dedicated access control solution designed for modern requirements. To use the Network Access Controller on a Challenger panel, the Challenger firmware MUST be upgraded to ChallengerPlus.

New features

- OSDP Wiegand LED mode for RED (Door Locked) / GREEN (Door Unlocked)

Improvements

- Lifts now support dual custody, card & PIN, and inhibit PIN functionality
- Improved support for Aperio and Salto wireless locking solutions

Resolved Issues

- Egress Held option has been improved to operate more consistently across products
