

WMS Pro

Web Management System

Trade Overview

WHO IS IT FOR?

Existing Tecom sites currently using:

- Titan
- CTPlus
- Security Commander
- Forcefield
- Hardware without management software

New Customers:

- Any single or multi-site customer who wants easy to use, effective management software with minimal licensing (No door licenses!)

- Designed and developed in Australia for local market requirements. Local tech support and local administration mean licensing your product and accessing support are easier than ever.
- No client tools to install, management is 100% web based!
- Enrol ChallengerPlus, ChallengerLEPlus and Discovery control panels, and Network Access Controllers connected directly to the software.
- Smart management of panels; new Controllers are auto discovered when pointed at the server, and their programming is adopted by the system and turned into the most efficient version it can be.

HIGHLIGHTS

- Site maps allow an Operator to view a fully customisable layout of their site and devices, with each device indicating its live status, and providing quick access to control commands and active alarms.
- Automations (event and time triggers) allow customers to streamline common & repetitive tasks.
- Server resources are much lighter, being designed exclusively for Aritech products mean efficient usage of both the server and network resources. Including Advanced SQL Configuration during the installation process.
- WMS Pro 3 is installed with a free 60-day trial activated out of the box, allowing customers to evaluate up to 5 Controllers, 5 Operators, Alarm Management, and 1 Cardholders API risk-free.
- Device asset tracking makes service and maintenance easier and more accessible when troubleshooting or replacing equipment.
- Full visibility of system configuration, aligned with hardware groups and functionality.
- Wizards will help you do everything in the system. Less training, less to remember, more time back in your day.

FAQ'S

Q. Why make WMS Pro?

A. Over time, some customers have developed sophisticated, custom requirements for their Tecom solutions. This has created a need for a **local software solution** that can be **customised to support these requirements**.

Q. Where is WMS Pro made?

A. WMS Pro is designed and made in Melbourne **specifically for the Australian and New Zealand security market**.

Q. What happens to existing software?

A. TecomC4 and Forcefield systems will continue to be sold alongside WMS Pro, with licensing and support being readily available for the foreseeable future.

Likewise, CTPlus also continues to be actively developed and supported as our local teams focus on improvements for new hardware and the WMS Pro integration.

WMS PRO

LITE vs STANDARD EDITION

WMS Pro is available in two base editions - **Lite** and **Standard**.

- **Lite** edition is ideal for small customers who may not require alarm management and just want a modern and easy to use management software for their Tecom system
- **Standard** edition is ideal for customers managing large and/or multi-site systems, with the potential for future integrations to manage cardholders and/or devices using third party systems

| | Lite Edition | Standard Edition |
|--------------------------------------|--------------|------------------|
| Included Controllers | 1 | 5 |
| Included NACs | 0 | 0 |
| Max Controllers / NACs (combined) | 50 | 600 |
| Included Operators (active sessions) | 2 | 5 |
| Max. Operators (active sessions) | 20 | 300 |
| Tecom Discovery Integration | Yes | Yes |
| Dark Mode | Yes | Yes |
| Alarm Handling | Optional | Yes |
| Site Maps | Yes | Yes |
| Automations | Yes | Yes |
| External API | N/A | Optional |
