NXG-1803-5

Secure NXG Keyhanger, leather look, 5-pack

Product overview

The tag, with key ring and leather look design, offers a robust solution for a secure environment where card data is protected with Mifare DESFire EV2 smart card technology. The tag is compatible with the xGenConnect security system.

The tag can be linked to a user either locally via the mifare keypad NXG-1832/33-EUR or remotely via the panel web pages. The user tag replaces a traditional PIN code and allows the user to fully control the xGenConnect security system as well as perform automated functions.

Details

- Attractive design, leather look
- Compatible with xGenConnect
