

Market Release Note

MRN-Ultrasync8.4_SP1

Product number: UltraSync
Product description: UltraSync web system
Product version: 8.4 SP1
Release date: 14/11/2024

Aritech advises the UltraSync system will be upgraded to 8.4 SP1 on Thursday, 14th November, 2024.

There will be a short interruption to following services during restarts:

Panel connections: devices will reconnect to another server in a few seconds, depending on the service grade

Video devices: recorders and cameras will reconnect to the cloud within 1-2 minutes

Central Stations: connections will be re-established within 1-2 minutes after restart. Signals will be delivered on the remaining side, only one side will be restarted at a time

Web portal: user requests will be delayed for up to 10 minutes during the restarts
