Market Release Note

MRN_TVPA-S02-0X01-360 -G

Product number:	TVPA-S02-0601-360-G; TVPA-S02-1201-360-G
Product description:	TruVision 360°IP Cameras
Release date:	15th April 2025

Aritech are pleased to announce the launch of the new TruVision 360°IP cameras.

Ideally suited for a variety of applications, the TruVision 360° network cameras provide high-quality image capture that delivers a complete view of indoor or outdoor areas for exceptional security coverage.

The 6 MPx and 12 MPx indoor and outdoor models are very effective for applications where wide areas need to be covered, such as intersecting corridors, parking garages, counters and warehouses.

User Benefits

ImmerVision Lens

The ImmerVision panomorph lens is superior to traditional panoramic lenses. It beats traditional wide-angle technology in performance and video coverage and allows users to navigate within the panoramic camera image without distortion. Panomorph technology is the most effective way to achieve more coverage, better image quality and compatibility.

Smart Features

Smart Retail Analytics - Embedded intelligence features like Heat Map, Queue Management, People Counting, and Intersection Analysis help retail owners to better understand the customer journey.
